A black and white photograph capturing a moment of intense medical activity. In the foreground, a team of healthcare workers, dressed in full-body protective suits, face shields, and masks, are pushing a gurney with a patient through a hospital corridor. The worker on the left holds a long wooden pole, likely used for moving patients safely. The scene conveys a sense of urgency and the high-risk environment of a COVID-19 ward.

PANDEMIC CHRONICLES:

NAVIGATING COVID-19 IN THE PEARL OF ORIENT SEAS

Story by: Jann Moises Nyll B. De los Reyes

The Philippines, like much of the world, has grappled with the ongoing COVID-19 pandemic since its first case in January 2020.

Philippines vs. COVID-19: A Visual Timeline of the Pandemic's Journey

As of: December 31,2022

TOTAL CASES
487,690

RECOVERIES
458,198

DEATHS
9,405
